2022 – 2025 Road Map

2022

- Ideation of Poly Bank
- Initiated Poly Bank and formed the operational team.
- Thorough research on market survey and development.

2022 – 2025 Road Map

2023

- Formation of the Core team to create a full global foundation.
- Designing the blockchain blueprint and its full framework.
- Started the development work of the exchange and the Poly Web 3.0 DAPP.

2022 – 2025 Road Map

2024

- Launching of the Poly Web 3.0 DAPP.
- Launching of the Poly Consistent liquidity Backed up “Poly Coin”.
- Launching of the Poly Exchange and the Poly NFT Marketplace.
- Listing of Poly Coin on CEX(Major Exchanges).
- Adding Poly Coin in CMC, Coin Gecko, Coin Store, Investing.com
- Launching of Poly Games, the major breakthrough gaming factor in the Web 3.0 world.
- Community Development events in Singapore, Hongkong, Seoul, Vietnam, and Moscow.
- Mega Event in December 2024 for Poly Coin reaching \$100.

2022 – 2025 Road Map

2025

- Poly Bank association with the major Health and Insurance leaders for decentralized and seamless product service.
- Launch of the Poly Health and Insurance.
- Setting up Health and Insurance centers in 21 countries around the globe.
- Showcase Poly Bank Products in Singapore WPS, Dubai Blockchain Summit, Paris Blockchain Week 2025, and World Blockchain Summit.
- Launching the world's first sustainable and consistent blockchain the “Poly Blocks”
- Initiating the first ever Wen3.0 economic deflation donation forum for educating deprived children, food for starvation, and disaster relief.

Poly Games.

Poly Games is a game changer application developed in Web3.0 platform which uses the AI technology to match the gamers from XBOX, PlayStation, PC or mobile. Gaming has been the most growing industry of \$200 Billion and 4Billion gamers playing games everyday. Hence Poly Bank focusses on creating such Web3.0 gaming solutions for the gamers through the Crypto assets.

www.polybannk.com

Poly Health and Insurance.

Poly Health and Insurance on Web3.0 blockchain solves the problem of increasing costs, discerning customers and innovative disruptions. Poly Health and Insurance Web3.0 Product will solve the health and Insurance industry with the following use cases:

- Moving towards interoperable, comprehensive health records.
- Supporting administrative and strategic imperative with smart contracts.
- Detecting fraud more effectively.
- Improving provider directory accuracy.
- Simplifying the application process by making it more client centric.
- Facilitating a dynamic insurer/client relationship.

Poly Sustainable Blockchain. “Poly Blocks”

The need for environmental sustainability in the corporate world has never been more pressing. Our planet is undergoing significant changes, and there is a growing demand for accountability from all industries. While the blockchain is criticized for its impact on the environment, it has the potential to play a crucial role in creating a sustainable future.

Poly Sustainable Blockchain technology offers enormous benefits for the environment and cannot be ignored. Poly blockchain technology offers new opportunities to enhance sustainability efforts by improving tracking and verifying emissions. Its immutability, accountability, and transparency make it possible to track carbon balances and other environmental metrics, holding companies accountable for their sustainability claims.

Poly Web 3.0 DAPP

Stake to Earn :

Poly Web 3.0 has integrated a super multi-algorithm decentralized staking platform where every user comes and opens a savings account in Poly Bank to earn daily profits.

The daily profits earned are withdrawable at any time in a decentralized manner through the Poly Web 3.0 DAPP.

The profits withdrawn everyday helps in generating “Poly Coin” which is accumulated on every withdrawal. The Poly Coin generates value on a time duration with a backed up liquidity and a consistent asset.

Poly Web3.0 Technology.

Poly Web 3.0 DAPP is developed on the Polygon Blockchain using its own native coin the **POL**

Why Polygon Blockchain?

Renowned Layer 2 scaling solution for Ethereum.

It provides improved scalability, cross chain compatibility and swift and economical transactions.

Only blockchain network that allows its token staking on the Polygon Blockchain.

Users can earn interest annually just by staking POL tokens to validate transactions.

www.polybank.com

POL Coin Price

It predicts that POL will reach \$3.91 in 2025 and long term projection for 2030 is \$11.45. This optimistic outlook is based on the belief that Polygons scalability solution and growing adaption will drive to value.

POL Coin Price

It predicts that POL will reach \$3.91 in 2025 and long term projection for 2030 is \$11.45. This optimistic outlook is based on the belief that Polygons scalability solution and growing adaption will drive to value.

Price Projection of **POL** by 2025.

Coin Switch :

Experts anticipate POL to reach around \$10 in 2028. It could trade upto \$3 per coin in 2024 based on the projection.

Changelly.com:

POL is projected to reach a price of \$1.2 by 2025 and \$7.5 by 2030.

Poly Coin

Poly Coin is a decentralized token under the Polygon Blockchain with a fantastic strategy of savings under the Poly Bank.

Poly Coin Tokenomics:

- Total Supply: 20million
- Developer: 1Million
- MarketMaking and Exchanges: 2Million
- Liquidity and ITO: 2Million
- Community: 15million
- PolyCoin Start Price: 0.2\$
- The price of Poly Coin increases by 0.01 for every 100,000 tokens Maintained.

Poly Coin Issuance Mechanism.

User comes in Poly Web 3.0 DAPP and stakes POL and in earns interest on the staking value.

Whenever the user withdraws his profit from Poly Web3.0 DAPP 10% of the withdrawable amount is directed to the liquidity pool of the Poly Coin.

Hence for the 10% that is deducted from the withdrawable amount in return an equal amount of "Poly Coin" is minted to the user wallet.

This Poly Coin is locked for a period of the staking package validity. After the staking package validity is over the accumulated Poly Coin is released 2.5% weekly or 10% monthly.

Price Projection of Poly Coin.

Days	Price	Liquidity	Token Issued
1	0.2	10,000\$	50,000
10	0.2	50,000\$	250,000
30	0.3	100,000\$	333,333
60	0.4	200,000\$	500,000
90	1.0	500,000\$	10,00,000

Poly Web3.0

Business Plan

240% APY on POL

**Poly
Validator :**

2%
100 & above POL

All the above packages can be activated in the multiples of 100 POL and the staking profits are also paid in POL.

*** For All Piiggy Packages the APY is 200%

www.polybank.com

Poly 2X **Booster** Bonus.

**Introduce 3 Directs and double
your profit within 7 days.**

For Example: User A stakes 100 POL where his profit is 1% daily, now when he introduces 3directs with same or higher package within 7 days his daily profit will be enhanced to 2%.

Poly Web3.0 Community

Development Program

Direct Fixed Income:

No business in the world succussed without team members success. So at Poly Bank each of the referral is a team member on its own. Poly Bank offers unrestricted potential of earning direct fixed income up-to Level 3 where each level on its won can have unlimited referrals.

Poly Web3.0

Community Development Program

Terms and Conditions :

- All Staking packages can be staked only with **POL**
- All withdraws are processed in **POL** in decentralized manner.
- There is 100POL minimum withdrawal.
- 10% deduction for liquidity pool of Poly Coin.
- Total Income and Profit Caping is 3X.
- Staking packages are in the multiples of 100 POL.

How Poly Bank

Pays Off?

Whenever it comes to good yield users tend to ask for revenue model and here we answer the same.

Poly Web3.0 being a verified smart contract deals with liquidity providers and fast loan trades which are basically provided in margin trade which runs as high as 1:100 and remains for few hours usually, where the lending price goes over 4%.

That's the reason Poly Web3.0 operates fully in automated way to execute liquidity and fast loan generating over 4% on its TAV(Total Asset Value). Hence paying 1% to 3% is possible using above system.

Earning Potentials

Any platform and its progression depends upon its users earning potentials so below we will calculate the achievable earning potentials of a user.

Example:

User A stakes 100 POL in staking. He refers only 1 users(though unlimited is possible) at each level upto 3 levels, user A built referral down line upto 20 levels.

At minimum a user stakes 100 POL only below are the earning potentials.

POL Staking

Yield up to 300%

Direct Fixed Income:

User A stakes 100 POL for 30 days and refers users under him then his Direct Fixed Income will be:

Smart Staking 100 POL	Referral %	Your 3 Level Referral
1	5 %	5 POL
2	3 %	3 POL
3	2 %	2 POL
	Total	10 POL

Total Earning Potentials

As seen from the above calculations with just 100POL staking and only 1 user being referred on single level those too only staking 100POL the total income.

Total of Income	Income in %	Income in POL
Staking Income	2%	240
Direct Fixed Income	10%	10
Poly Savings Inxome	74%	74
	Total Earnings	324

Consistency in Long Run

Poly Web3.0 being a verified Smart Contract is inevitable and cannot be shutdown or altered.

Since the launch of Poly Web3.0 our target is to consistently acquire more users and incoming inflow of POL to increase the TAV(Total Asset Value) for the auto-algorithm trading.

There are over 150Million POL addresses holding at least 10POL so on a long run we are aiming to reach all those users to get connected to Poly Web3.0 smart contract.

Also since contract pays from the instant the users join, through the multi-algorithm TAV trading, it makes users more trust worthy.

Conclusion

- By just staking 100POL your profits are 324POL for just one referral with same staking value.
- All the income are paid on each blocks (approx. every 3 seconds)
- All profits are instantly available for withdrawal any time without need of anyone's approval.
- These are 100% decentralized against rather than Meme Coin like DogeCoin or Shibu Coin which are very risk asserted and never those less only centralized coins which are subjected to 100% instant dump.

Future of POL (Polygon Blockchain)

Polygon continues to make significant advancements in its technology and partnerships. The introduction of zkEVM, an Ethereum Virtual Machine-compatible program, enhances Polygon's compatibility with existing Ethereum-based applications and tools.

This interoperability strengthens Polygon's position as a leading layer-2 scaling solution. Additionally, Polygon's collaboration with industry giants like Robinhood and Meta (formerly Facebook) demonstrates its growing adoption and recognition in the mainstream market. These partnerships open up new opportunities for Polygon's ecosystem and increase its visibility and usage.

Coincodex.com platform predicts POL could reach \$1.79 to \$4.24 by 2030, and experts from Changelly predict it could reach minimum and maximum prices of \$10.28 and \$12.56 by the end of 2030.

Other industry analysts have varying opinions on the future price of Polygon (POL). DigitalCoinPrice predicts that POL could reach \$2.43 in 2023 and \$3.91 in 2025.

Their long-term projection for 2030 is \$11.45. This optimistic outlook is based on the belief that Polygon's scalability solutions and growing adoption will drive its value.

Future with Poly Web 3.0

As explained technically and strategically it is well to be noted that with Poly Web3.0 a user with its lowest profit can earn up to 500% in just 15 days.

Hence.....

Sticking to Mission and Vision :

At Piiggy Bannk not only we but everyone has a mission and a clear vision where we are strictly adhere to the same.

We will be adhered to our commitment to the community and develop the ecosystem so that the community can be benefited with the platform.

So waiting is such a waste of time.
